PRIYA S. NAIR

Data Scientist & Analytics Engineer

priya.nair.analytics@email.com • (555) 432-8765 • Austin, TX • github.com/priyanair • linkedin.com/in/priyanair

PROFESSIONAL SUMMARY

Quantitative data scientist with 5 years of experience building production predictive models, statistical experimentation frameworks, and automated analytical pipelines. Skilled in transforming complex datasets into clear, data-informed product strategies.

TECHNICAL COMPETENCIES

Statistical Modeling: A/B Testing, Time Series Forecasting, Regression, Clustering, Decision Trees
Languages & ML: Python (NumPy, Pandas, Scikit-Learn, PyTorch), R, SQL (Advanced CTEs, Window Functions)
Data Stack & BI: Snowflake, BigQuery, dbt, Apache Airflow, Tableau, Power BI, Metabase

PROFESSIONAL EXPERIENCE

Lead Data Scientist | Quantum Analytics Group *2022 – Present | Austin, TX*

- Developed customer churn prediction model in Python (LightGBM), enabling proactive outreach that saved $1.2M in annual recurring revenue.
- Designed centralized experimentation framework standardizing sample size estimation, variance reduction, and Bayesian A/B testing.
- Collaborated with data engineering to transition raw data lake tables into validated dbt marts serving 150+ analytics consumers.

Data Analyst | Catalyst Fintech Labs *2020 – 2022 | Dallas, TX*

- Built 12 automated executive dashboards in Tableau tracking customer acquisition cost (CAC), LTV, and net retention.
- Optimized SQL extraction pipelines on Snowflake, reducing daily batch query costs by 26%.

KEY TECHNICAL PROJECTS

Predictive Demand Forecasting Engine (Python, Prophet, Airflow, Docker) *github.com/sample/demand-forecast*

- Trained hierarchical time-series model forecasting multi-SKU retail demand with 91.2% out-of-sample accuracy.
- Automated weekly retraining pipelines and drift monitoring with Apache Airflow.

EDUCATION & CERTIFICATIONS

M.S. in Data Science & Statistics — Texas A&M; University *2020*

B.S. in Mathematics — University of Texas at Austin *2018*
