ALEXANDER K. VANCE

Senior Systems & Software Engineer

alex.vance.dev@email.com • (555) 876-5432 • San Francisco, CA • github.com/alexvance • linkedin.com/in/alexvance

PROFESSIONAL SUMMARY

Systems engineer with deep expertise in distributed backend systems, concurrent programming, and low-latency API design. Proven track record refactoring monolithic architectures into microservices handling 25k+ requests per second with strict latency SLAs.

TECHNICAL COMPETENCIES

Languages: Go, C++, Rust, Python 3.11, TypeScript
Backend & Storage: gRPC, REST, Kafka, PostgreSQL, Redis, ScyllaDB
Systems & Tools: Docker, Kubernetes, Linux Internals, eBPF, Prometheus, OpenTelemetry

PROFESSIONAL EXPERIENCE

Senior Distributed Systems Engineer | Apex Distributed Labs *2022 – Present | San Francisco, CA*

- Engineered a distributed write-ahead log service in Go and Kafka, increasing event ingestion throughput by 3.4x.
- Optimized PostgreSQL connection pooling and query plans, reducing 99th percentile query latency from 240ms to 28ms.
- Formulated disaster recovery architecture with automated multi-region failover tested under chaos engineering simulations.

Backend Software Engineer | NovaStream Networks *2020 – 2022 | San Jose, CA*

- Developed asynchronous microservices in Python (FastAPI) and Redis pub/sub processing 4M daily telemetry messages.
- Integrated distributed tracing via OpenTelemetry to identify and resolve inter-service network bottlenecks.

KEY TECHNICAL PROJECTS

KubeMesh: Lightweight Service Proxy (Rust, Tokio, eBPF) *github.com/sample/kubemesh*

- Created an experimental zero-copy TCP proxy with sub-millisecond overhead under 50k concurrent client streams.
- Authored benchmarks and architectural whitepaper presented at regional systems meetup.

Distributed Raft Consensus Engine (Go, Protocol Buffers) *github.com/sample/raft-go*

- Implemented Raft consensus algorithm with leader election, log replication, and snapshot persistence.

EDUCATION & CERTIFICATIONS

B.S. in Computer Science — University of California, Berkeley *GPA: 3.84 • 2020*

AWS Certified Solutions Architect – Associate — Amazon Web Services *Issued 2023*
